

# About Me

I design and code beautifully simple things, and I love what I do.  
quick information about me.

Moussatef Othman Dev

## My Profile

I'm currently in the first year of YouCode School, as a web developer. Within a specialized course in computer science, I have good knowledge in the field of web development (HTML, CSS, PHP ...), SQL, C or even JavaScript. I am looking for an introductory IT internship to put my skills and knowledge into practice. Curious, with a team spirit and motivated to discover new methods and new technologies.
