Designer, Full-stack Developer & Mentor

"It is the province of knowledge to speak, and it is the privilege of wisdom to listen." —Oliver Wendell Holmes Sr.

View Profile

PHP

PHP is a general-purpose scripting language especially suited to web development. It was originally created by Danish-Canadian programmer Rasmus Lerdorf in 1994. The PHP reference implementation is now produced by The PHP Group.

Java Script

JavaScript is a high-level programming language; It was originally designed as a scripting language for websites but became widely adopted as a general-purpose programming language

Vue JS

Vue.js is an open-source model–view–viewmodel front end JavaScript framework for building user interfaces and single-page applications. It was created by Evan You, and is maintained by him and the rest of the active core team members
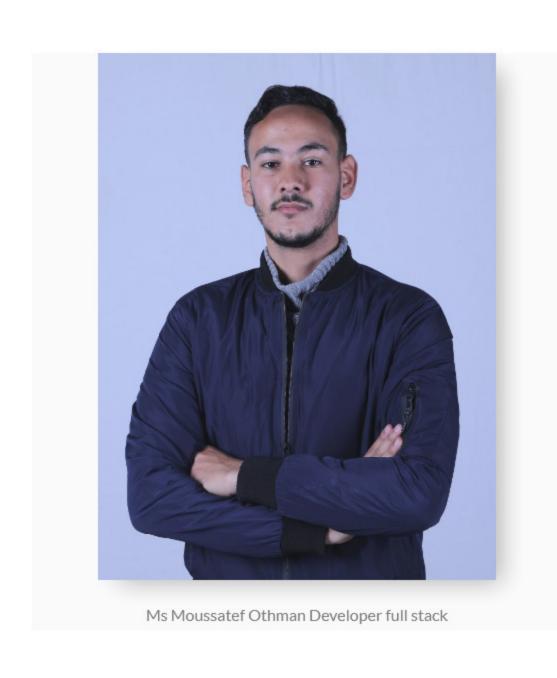

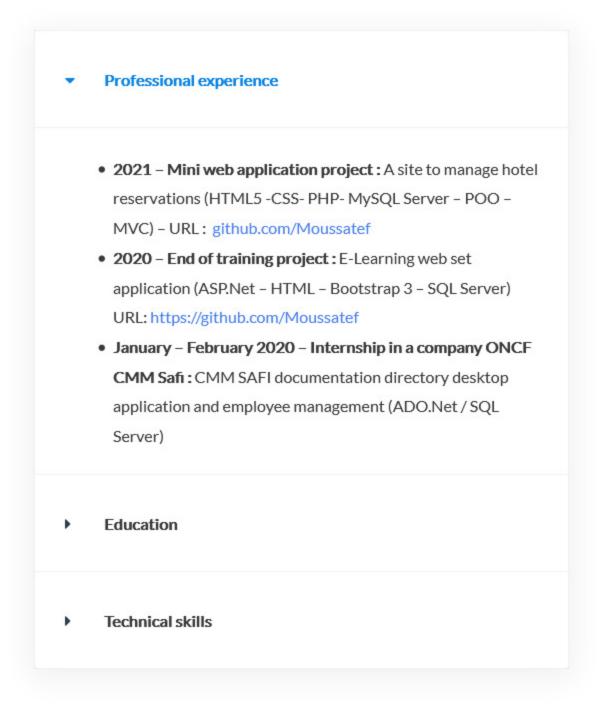

Moussatef Othman

I'm currently in the first year of YouCode School, as a web developer. Within a specialized course in computer science, I have good knowledge in the field of web development (HTML, CSS, PHP ...), SQL, C or even JavaScript. I am looking for an introductory IT internship to put my skills and knowledge into practice. Curious, with a team spirit and motivated to discover new methods and new technologies.

Ms Moussatef Othman Developer full stack
